

TO WHOM IT MAY CONCERN

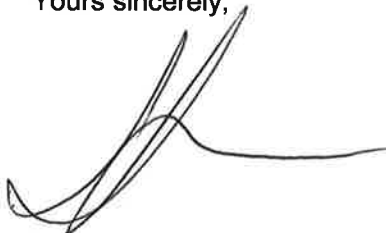

Dear Sir/Madam

This letter serves to confirm that Expo Solutions, has worked with Gartner South Africa for the past three years on the Gartner Symposium/ITxpo in Cape Town, at the Cape Town International Convention Centre. This annual event has 1200 delegates and an exhibition of over 30 IT Solution Providers. Expo Solutions provides site project management pertaining to build-up and strike down of these events, branding and signage, liaison with exhibitors regarding their stand requirements, floor-plan management including design and construction of individual stands. They have also worked on many custom builds for us to enhance our event from a marketing and client experience.

Throughout our relationship, we have come to respect the level of commitment, the efficiency of delivery and positive attitude towards challenging deliverables, demands and expectations placed on the company. This is a philosophy that permeates throughout the entire company. We have had amazing support from our Account Manager pre and onsite at the event. Also from Senior Management within Expo Solutions. They take a personal interest in the event and very involved with build-up etc. onsite at the venue. Also, the value they add to projects which often sits outside the scope of their contract is immense; assisting to manage diverse stakeholders.

It is for these reasons that Gartner South Africa, will continue to work with Expo Solutions and we would highly recommend them to any company needing this sort of supplier.

Yours sincerely,

Lisa Lawlor
Program Director
